

What is claimed is:

1. An individual wrapping body comprising:

an interlabial pad with a size capable of being smoothly inserted between female labia; and

5 an individual wrapping container for covering and enclosing the whole portion of said interlabial pad,

wherein a processing for suppressing the number of live microorganism is applied to said interlabial pad during manufacturing and / or after manufacturing, and the number of live microorganism is suppressed to equal to
10 100 or less even after a period of six months from the manufacture.

2. An individual wrapping body as claimed in claim 1, wherein said processing is a disinfection processing.

3. An individual wrapping body as claimed in claim 2, wherein, by said disinfection processing, said interlabial pad is sterilized immediately after
15 manufacturing.

4. An individual wrapping body as claimed in any one of claims 1 to 3, wherein said interlabial pad comprises:

a permeable surface side sheet facing a body side;

a back side sheet facing a garment side, the back side sheet being
20 bonded to said surface side sheet; and

an absorber included between said surface side sheet and said back side sheet.

5. An individual wrapping body as claimed in any one of claims 1 to 3, further comprising a mini sheet piece on the garment side surface of said back
25 side sheet,

said mini sheet piece having one or more bonded areas in each side area in the longitudinal direction of said back side sheet; and

an unbonded area in the lateral direction of said back side sheet; said unbonded area forming an opening for inserting a finger between said mini sheet piece and said back side sheet.

5 6. An individual wrapping body as claimed in claim 5, wherein said interlabial pad is folded and enclosed such that said opening for inserting a finger opens.

7. An individual wrapping body as claimed in claim 5, wherein an interlabial pad is positioned such that said opening for inserting a finger is positioned to face the opening of said individual wrapping body.

10 8. An exterior container, comprising a package for packaging two or more said individual wrapping bodies as claimed in any one of claims 1 to 3, wherein said package comprises:

 a main body of a container and

 a lid capable of opening and closing for covering an opening part of said
15 main body of the container.

9. An exterior container as claimed in claim 8, wherein said package includes an over-wrapping for covering at least said main body of the container.

10. An exterior container as claimed in claim 8, wherein said main body of the container of said package is bonded with at least a part of said lid.

20 11. An exterior container as claimed in claim 8, wherein said main body of the container of said package and said lid are continuously formed; and said package is formed by bonding said lid towards said main body of the container.
